

matt  
puchlerz  
scholarship

---

This memorial scholarship fund has been established with the help of friends and family to honor the life and career of Matt Puchlerz as a very talented web designer and developer.

At twenty-six years old Matt suddenly passed away leaving a huge void. He is survived by his wife of one-year, Carrie, his parents, Dennis and Roberta, his brother Tyler, and many friends throughout Buffalo and the Chicago Tech Community.

Matt was a 2002 graduate of Starpoint and BOCES, and earned his degree in Digital Media Arts from Canisius College in 2006. His digital media teacher from BOCES, Jennifer Licata, still uses examples of Matt's work from high school in her classes today.

One scholarship of \$1,000.00 will be awarded to a Starpoint graduate who will be continuing their education this fall in the fields of web design/developer or digital media arts.
